STADS
KOFFY
HUIS
SINDS 1966

Sooner or later, discover Delfts most beloved spot

More than 55 years ago, in 1966, Arie and Riet Kleyweg opened the doors of “Stads-Koffyhuis” in Delft. They were one of the first in the city who used real espresso machines. Stads-Koffyhuis quickly became a popular concept in Delft. From that moment on, sphere and quality are our standard.

Coffee is much more than a black bitter drink. A good cup of coffee can work relaxing, but also brings people together. It is therefore not surprising that when you visit Stads-Koffyhuis you can easily see three generations enjoying coffee.

But Stads-Koffyhuis is much more than just a place where you come back for delicious coffee. It goes without saying that quality is our top priority. We won several times the contest of ‘Tastiest Sandwich in the Netherlands’. The last one we achieved in 2020 with the sandwich Burrata di Vega! Our ‘Alex’ choice even became proclaimed the ‘Best Sandwich of all Netherlands’ of the past 25 years. In 2009, 2012, 2014 and 2017 we won the ‘Lekker anders’ competition.

While you are sitting on the terrace, eating your price winning sandwich, behind the screens there are working more than 80 people at Stads-koffyhuis and De Delf (our other company) Among them, there are employees who have seen the business grow for decades, there are working employees who have a distance to the labor market and we work with interns. Furthermore we work with local companies and we try to use as many local products as we can!

In 2018 we started our new challenge, “De Delf”. It lies 50 meters further along the canal. You can enjoy food and drinks of the same quality and with the same passion as you are used to at Stads-Koffyhuis. At De Delf you can eat different kind of meat-, fish- or vegetarian dishes. Shared dining is what it’s all about at De Delf.

Sooner or later you discover it....

The regular guests, some of whom have been around for more than 55 years to drink their favorite cup of coffee. The grandmothers that visit with their grandchildren and enjoy our delicious pancakes. Families who make a quick stop at the coziest canal of Delft. But also the tourists from all over the world who came to enjoy our prize winning sandwiches. They not only discover our quality, but also our old fashioned coziness which are very important to us. What a cup of coffee can do...

Milk and meat from the local farmer

About Hoeve Biesland and Stads-Koffyhuis

“Central Park” is what farmer Jan calls the local polders of Delft as a joke. But that idea is not that mad. Our grasslands form a green oasis enclosed by Rotterdam, Delft, Den Haag, Zoetermeer and Gouda. Underneath the smoke from these cities we interweave nature, agriculture, healthcare and the city into one.

We are grateful that a lot of citizens and entrepreneurs from our region are buying local products. Stads-koffyhuis went a little further, by adopting chickens from a local farm. This cooperation helps us to preserve and flourish this beautiful nature close to the city.

HOEVE BIESLAND

3 COFFEE

Coffee blends

The blend for our **coffee** has a soft taste with a rich aroma of citrus fruits, cane sugar and a caramel-like aftertaste. The light roasting of the bean creates a subtle fruity sourish taste that makes this coffee extremely suitable as a café crème.

For our **espresso** blend we use a balanced blend of High Land Arabica and a touch of Premium Estate Robusta, which is characterized by the pleasant taste of chocolate and caramel. The slightly earthy tones make it a beautiful espresso with a powerful aftertaste.

TIP

Your own slanted bin as a souvenir? This is available at the checkout for 17.50 each

HOEVE BIESLAND

The milk we put in our coffees is from the organic farm “Hoeve Biesland”.

11 minutes by bike from here, you can see the dairy cows grazing in the meadows. The dairy cows give creamy milk of high quality. The milk will be processed to high quality fresh milk. Fresh milk from the local farmer as nature intended to, you can taste it!

The oat, the whole oat, and nothing but the oat

Besides the milk from our local farmer “Hoeve Biesland” you can choose oat milk from “ROA”. Oat milk from “ROA” is made of European high quality oat. “ROA” uses the whole oat cores without added sugars. This guarantees high quality and minimizes the distance the oat travels. So that tastes well in your coffee and it's good for the planet.

PANCAKES

Flour from the mill

Near Stads-koffyhuis you will find the Delfs mill “De Roos” Is one of the oldest working monumental mills in the Netherlands. The mill dates from 1679.

Back in the days Delft counted 15 mills, mill “De Roos” is the only one left. This is the basic of our Dutch pancakes according to a traditional Delfts recipe.

Mill “De Roos” provides Stads-koffyhuis with traditional crafted flour. The unique mix of wheat flour, whole wheat flour, buckwheat and vanilla sugar makes the recipe delicious.

A pancake full of Delfts ingredients or just with sugar, our pancakes are always tasteful.
